

A complete turnkey project to convert a classroom into a Food Technology Facility

A complete turnkey project, that involved stripping out of the existing furniture and components of Mechanical & Electrical Services.

Tolworth Girls School Food Technology Classroom

InterFocus

- The existing floor was stripped, and new vinyl laid.
- The room was prepared and decorated.
- Furniture was manufactured and installed.
- New Sinks, Taps and Mechanical Services, including gas were installed.
- New Gas and Electric Cookers were installed, together with Dishwashers, Washing Machines and Tumble Dryers.
- The existing electrical system was upgraded and new installed where necessary.

The whole project was completed in under four weeks.
